Completion: Spring 2012

Architects: Atelier RZLBD / Reza Aliabadi
Structure: ADA Engineering
Construction: Maxamin Homes
Architectural Photography: Borzu Talaie

The Whale house is another spatial experiment by rzlbd, a monochromic contemporary manifesto that evolves around a central detached box painted in red standing free inside a three storey height foyer. The building appears to have swallowed the box symbolizing the contemplation space inside the spacious jaw of the whale that swallowed Jonah.
