

R-07 CONSOLE TABLES

TORONTO
CANADA

Project Credits

Client: Private
Program: Displaying
Location: Toronto, Canada

Material: Hot-rolled Metal

Design: 2016-17
Manufactured: 2018

Design: Atelier RZLBD / Reza Aliabadi
Project Team: Reza Aliabadi, Aziza Asat,
James Chungwon Park
Photography: Borzu Talaie

R-07 Metal Console Table is a pure geometry given utilization through folding. Once a flat surface of a metal sheath, it is cut and folded perpendicularly to add three-dimensional planes, on which the client's artefacts are exhibited. The three variations, all identical and generic in flat conditions, receive dimensions from the paintings hung over them and become specific to their immediate contexts, resulting in an absolute frame for each artwork while uniformly functioning as a table. The three abstract appearances embody the theme of a geometrical order, a motif for the larger space that contains them.
