

# AK CLINIC ROOM

BRAMPTON  
ONTARIO  
CANADA

---

## Project Credits

Client: AK Care  
Program: Clinic  
Location: Brampton, Ontario, Canada

Structure: Steel & Wood Framing  
Lot Area: N/A  
Size (GFA): 5.4 m<sup>2</sup> (60 sqft)

Design: 2019  
Completion: 2020

Design: Atelier RZLBD / Reza Aliabadi  
Project Team: James Chungwon Park  
Construction: Maxamin Homes  
Photography: Borzu Talaie

---

Our human body reveals that beauty or health is symmetrical, balanced, and ordered. The smallest intervention project of rzlbd to date, the AK Room is a spatial experimentation of these values, converting a typical clinic room of an insignificant footprint into one that transcends its physical boundary and inspires a deeper sense of well-being. Expressing the idea of “care” beyond clinical service, the room is composed of two symmetrical “hands” coming together from above and below, embracing a body in the very center. The materials of the ceiling (wood) and the floor (tile) extend on the two side walls up to the ribbon mirror in the middle, forming a U-shaped bottom and its counterpart top; everything else is in either white or black to be visually unobtrusive. Upon entering the central gate, the room unfolds a small universe, in which everything is perfectly symmetrical, both horizontally and vertically.
